Don- wanted to have a follow up on where we stand on the pavilion area shade structure progress. The pavilion area shade and wind break awnings were discussed and approved but nothing has been done, we could utilize the pavilion more for our events if we had this in place. Since we do not have a community center YET we are out growing our home facilities to host events and the pavilion is the only public area large enough to accommodate them now. Volunteers have stepped up to make this happen but the board has not made and action item approving this funding.
